

Dinosaur State Park Exhibit Center

Take a virtual field trip to see some of the amazing exhibits at Dinosaur State Park's visitor center - without having to travel to the center. Feel the excitement of this virtual tour hosted in Google Street View. Move around and zoom in to a favorite exhibit or look for something new you may not have noticed on a previous trip. On this virtual field trip, immerse yourself in the experience of walking in the footsteps of dinosaurs on the 200 million year old trackway - an adventure not typically open to the public.

The link below will take you to a virtual tour of the exhibit center at Dinosaur State Park and is hosted in Google Street View.

You may notice that some exhibits and furniture look slightly different. . . this tour was completed a few years ago but still includes all of the main exhibits. You can even go down on the main trackway, a location not often open to visitors!

Feel free to zoom in on the various exhibits using your scroll wheel. Which is your favorite?

Take your time to look closely at the various fossilized tracks around the exhibit center. What do you notice about them? How are they similar, how are they different?

Unearthing the Past Exhibit Video

You can also view the exhibit video on CT DEEP's YouTube channel here:

This video documents the uncovering in 2011 of a portion of the buried trackway. The still buried trackway was discovered in 1966 and reburied in 1976 to preserve the tracks.
